LOWNDESVILLE.

Messrs J. T. Bott and Clarkson Russell of Anderson C. H. came down yesterday & week ago and stayed with friends here till the next day. Mrs. W. J. Jones whose home is with her children at Anderson, C. H. and other places spent several days in this place, with her son Mr. R. R. Jones who is working for Messrs. Cooley & Speer. Mr. R. H. Mosely, who had been confined to his home for several weeks, on account of sickness, was so far recovered as to be able to be on our streets last week. Miss Annette Farrar of the City Hospital who has been for some time, in attendance upon the above named in his illness discharged her patient and returned to her Augusta home, Monday evening. Quite a number of our planters, have had to plow up and plant over. Much of the land planted in cotton seed, two or three weeks ago, but those were unfortunate, where it was necessary to buy seed for that purpose. Their necessities were taken advantage of, in making them pay unheard of prices, for common seed, as has been done at other places, from reports. During the confinement of several weeks of Miss Grace Wilson, one of the assistants in the High School, in this place, to her home by sickness, Miss Annie Bell has been efficiently filling the place. Mr. Claude Newlin is assisting Mr. Louis Bell in his duties, as Depot Agent in this place. Mr. J. M. Hockabee went to Atlanta last week, and carried and sold a Car Load of Cattle. Miss May Ray who had spent some weeks with friends at Anderson, C. H. and other places, came back to her home here last week. Mr. J. T. Latimer went to Belton Thursday to spend a few days with his brother Senator A. C. Latimer. If the planters heed the lesson learned this year, as to the proper selection and taking care of their cotton seed, their future welfare will be greatly bettered, for it is doubtless owing in a great measure, to their want of care along this line that the additional labor and expense in having to plant much cotton the second time was brought upon them. Because of the tremendous interest involved, it would seem to be, of the first importance, to select and care for, the best seed obtainable, and better stands and larger yields, would be gained. Last Thursday, Mr. Bolling Allen sent his one horse wagon to the Depot for some freight belonging to one of our Merchants, and in order to reach the car in which freight was wagon was placed upon the main line. About the time the loading was to begin, a thorough freight which does not stop, hurriedly came up, the driver of the wagon only had time to get the horse out of the way, when the engine struck the wagon demolishing it, leaving only front wheels and shafts still hanging to the horse. It ran off and fell into a nearby gulch, but was not hurt, only badly scared.
